**Detailed Action**

1. In response to the Request for Continued Examination (RCE) received on November 16, 2003, claims **1-18** are pending in the application.

***Priority***

2. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

***Information Disclosure Statement***

3. This office acknowledges receipt of the following items from the Applicant:  
Information Disclosure Statement (IDS) filed October 20, 2003.  
Information disclosed and listed on PTO 1449 was considered.

***Examiner's Statement of Reasons for Allowance***

4. Claims **1-18** are allowed.

Ooishi (US 6,714,443), Nahas (US 6,714,442), Gogl et al. (US 6,577,528), Swanson et al. (US 6,493,259) and Perner et al. (US 6,256,224) disclose a magnetic memory device having bit line drive circuits similar to that of the present application, but fail to teach:

“a plurality of bit line drive circuits disposed corresponding to the bit lines and supplying currents according to write data to a corresponding bit line, each bit line drive circuit including; a first drive circuit for supplying a first current to a corresponding bit line in accordance with write data to an adjacent column when the adjacent column is selected; and a second drive circuit for supplying a second current to the corresponding

bit line in accordance with the write data to the corresponding column when the corresponding column is selected” as claimed in the independent claim 1; or

“a column selecting circuit for selecting a predetermined number of memory cell columns in parallel from the columns of said plurality of magnetic memory cell in accordance with an address signal, said any adjacent columns in said predetermined number of memory cell columns sandwiching at least one bit line; and a plurality of bit line drive circuits disposed corresponding to the bit lines and supplying a current to a corresponding bit line in accordance with write data and a column selection signal from said column selecting circuit” as claimed in the independent claim 9; or

“bit line drive circuitry for supplying current according to write data to a corresponding bit line connecting to a memory cell having said write data written thereinto, said bit line drive circuitry including; a first drive circuit for supplying a first current to the corresponding bit line in accordance with write data to an adjacent column when the adjacent column is selected; and a second drive circuit for supplying a second current to the corresponding bit line in accordance with the write data to a corresponding column when the corresponding column is selected” as claimed in the independent claim 12.

Any comments considered necessary by applicants must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comment on Statement of Reasons for Allowance”.
